

Are you passionate about preventing climate change? Do you think the University can do more to reduce its carbon footprint? If you've got ideas, we want to hear them!

UConn Student Climate Action Summit

**When: Thursday, February 5th
5:00 PM - 6:30 PM**

Where: Student Union, Room 304C

Free pizza, cookies and drinks – first come, first served!

Come join fellow students to discuss climate change prevention efforts that are occurring at UConn. This event will be led by undergraduate student leaders. The event will include a short presentation on the university's climate change planning efforts to-date. Students will then have the opportunity to contribute directly to the conversation by providing their own solutions for how the university can reduce its carbon footprint. Conversations will focus on energy use and conservation, transportation options, and campus education and outreach opportunities.

The University's Director of Environmental Policy, Climate Action Plan Project Manager, and Sustainability Coordinator will be on-hand to answer questions as well.
